Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 08 June 2010.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

FUEL SUPPLY UNIT FOR FUEL CELL AND FUEL CELL USING SAME

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 8, 2010 has been entered. Applicant has amended claim 1. Claims 1 and 3, 4, and 6-12 are pending.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1, 3, 4, and 6-12 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claims 1, 3, 4, and 6-12, claim 1 recites "... the concentration in the liquid fuel in the fuel vessel is adjusted to power generation ... ". Although applicant has cited a number of

sections of the originally filed specification as support for the amendments made to the claims, none of those sections appear to support this recitation. (Claims 3, 4, and 6-12 depend upon claim 1.)

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1, 3, 4, and 6-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1, 3, 4, and 6-12, claim 1 recites the limitations "the constituent of the fuel" and "the supplementary liquid". There is insufficient antecedent basis for these limitations in the claim. (Examiner's Note: For purposes of examination, it is assumed that this phrase is -- the supplementary liquid **fuel** --.) Further, claim 1 recites "... the supplementary liquid [fuel (see assumption described above)] is more concentrated than the liquid fuel in the fuel vessel." However, prior to this recitation, the claim also recites that "... a supplementary liquid fuel contained in said fuel vessel ...". It is unclear how the supplementary liquid [fuel] can have a concentration higher than that in fuel vessel when the supplementary liquid fuel is the fuel in the fuel vessel. (Claims 3, 4, and 6-12 depend upon claim 1.)

Claim Rejections - 35 USC § 103

7. The rejection of claims 1, 3, 4 and 6-12 under 35 U.S.C. 103(a) as being unpatentable over Hirsch et al. (US 2004/0209133) is withdrawn because claim 1 was amended.

Response to Arguments

8. Applicant's arguments filed on February 10, 2011 have been considered, but applicant has amended the claims such that new grounds of rejection were necessitated.
